

“

If Deep Duggal walks into your office looking for a job, hire him immediately. You will never regret it.

”

- Laves Pritmani, CEO, Learn Bhangra App, LLC.

Hand-Picked From My Portfolio (More: <http://deepduggal.me>)

WithLoveBani.com - *In Progress*

With Love, Bani is a high-end fashion brand that specializes in “Bespoke Couture & Personal Styling”. I was approached by With Love, Bani to design & develop a website to expand the brand’s online presence. Created with HAML, SCSS/SASS, JavaScript, & jQuery.

SexyCalc.com - *Online (Beta)*

The Galaxy’s Most Beautiful, Mobile-Friendly Online Calculator. I noticed a lack of good-looking & mobile-friendly online calculators, so I made one. Created with HAML, SCSS/SASS, HTML, CSS, & pure JavaScript.

Experience

Trade Ship Inc.

Web & Mobile Development Intern

May 2016 - November 2016

Developed web & hybrid mobile enterprise applications for the Android, iOS, & Windows platforms. Integrated SOAP & REST services & APIs. Used Oracle Application Development Framework (ADF), Oracle Mobile Development Framework (MAF), XHTML, HTML, XML, CSS, Oracle PL/SQL & Java.

Learn Bhangra App, LLC

Mobile Development Intern

November 2014 - May 2015

Developed Learn Bhangra App's core functionality, converted design mockups to code, added new features, fixed bugs, & directly facilitated the development of the production-ready app, alongside the CEO & CTO. Used XML, Java, Gradle, & Android SDK.
